## Contract order shade options

For contract enquiries, we are able to offer several colour options for the fabric shades shown in this catalogue. These shades are manufactured in the U.K. from high quality European cotton fabric available in the colour options shown below. For further details and pricing, please contact our customer service department.

\*Other colour and fabric options are available on request.

# wall lights and table lamps

Chrome finish LED reading light on flexible arm. The small backplate with switch is designed for mounting directly onto a headboard or mounting surface. The LED driver needs to be housed separately adjacent to the fitting.

Chrome finish LED reading light for surface mounting with switch on backplate and integral driver.

**LED WB929**  
1 x 3W LED 100lm 3000K  
W 60 | P 275 max |

Chrome finish rectangular section table lamp with a cream rectangular shade and additional LED reading light on a flexible arm. There are 2 switches on the base.

3 year warranties are available on Franklite LED products. See the Legal Matters page on our website for details.

**LED TL819/9867**  
1 x 60W E27 + 1 x 3W LED 100lm 3000K

**TL870**  
1 x 60W E27  
Ø BASE 150 | W 310 x 200 | H 520

# wall lights, standard and table lamps

Chrome finish wall brackets, table lamp and standard lamp with off-white rectangular shades. The standard and table lamp have in-line switches. On WB047/9892 the LED reading light on the flexible arm is independently switched. N.B. Requires two separate power feeds for installation. The LED reading light has a switch on the bracket and therefore requires a non-switched 240V supply. The main light will utilize a normal wall switched 240V supply.

## **WB047/9892**

# wall lights, standard and table lamps

Bronze finish wall brackets, table lamp and standard lamp with off-white rectangular shades. The standard and table lamp have in-line switches. On WB043/9892 the LED reading light on the flexible arm is independently switched. N.B. Requires two separate power feeds for installation. The LED reading light has a switch on the bracket and therefore requires a non-switched 240V supply. The main light will utilize a normal wall switched 240V supply.

## LUMINAIRES FOR BATHROOMS

Bathroom luminaire installations must comply with legislation: Section 701 of BS7671:2008 (Wiring Regulations 17th Edition). A summary of this is printed below to assist with your choice of bathroom lighting.

**ZONE 0:** This is the interior of the bath tub or shower tray. We do not supply luminaires for this zone.

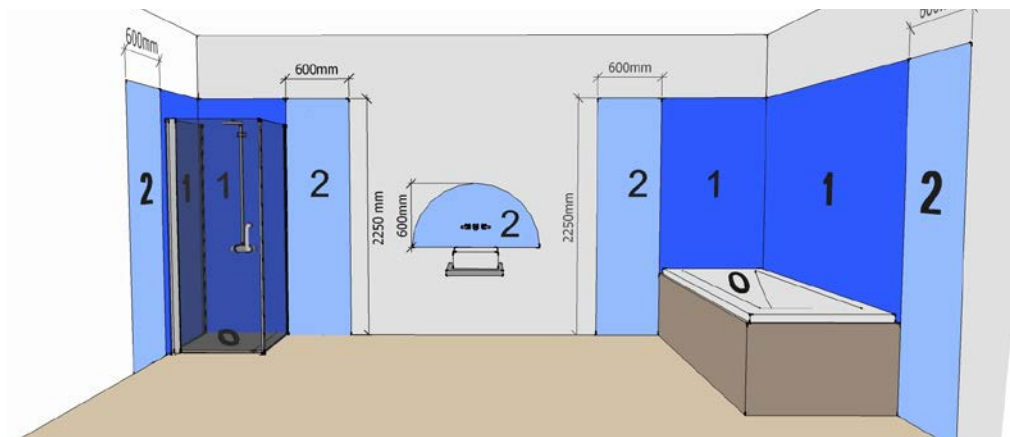

**ZONE 1:** This is the area directly above the bath tub or shower tray to a height of 2.25m above the floor. The protection required is a minimum of IPX4 (Splash proof) for normal domestic use.

### ZONE 2:

- a) This is the area over the bath tub or shower tray above zone 1
- b) This is the area outside zone 1 and extends horizontally 0.6m and vertically 2.25m.

The protection required is the same as zone 1.

The above does not apply to communal baths and showers where jets of water are used for cleaning purposes. We recommend that you consult a qualified electrician to ensure that the wiring and electrical supply are protected in accordance with the Regulations.

Chrome finish ceiling plates with a mass of crystal glass drops. Rated IP44. All items are suitable for use in every bathroom zone except zone 0.

Emergency option available for  
above items on request.

## RF219

Fire rated to 90 minutes  
W 200 x 200 | H 150 |

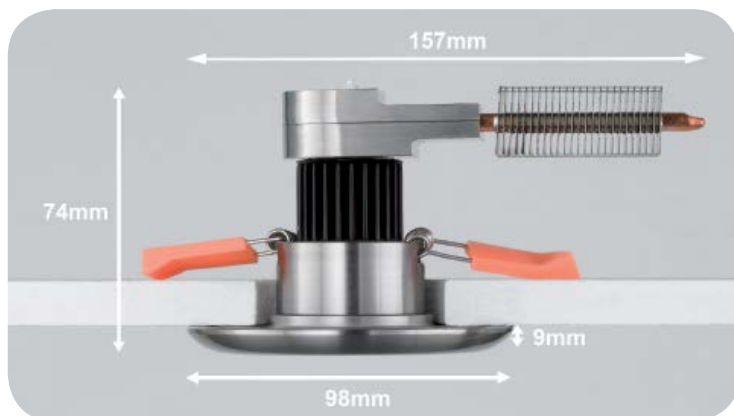

Dimensions are a guide only. No hole should be  
cut in the ceiling before receipt of fittings.

# downlights

## FRANK *Led*

A range of downlights providing the following features:

- Equivalent light output to 50W MR16 GX5.3 luminaires
- Reflector optimises optical performance, prevents colour separation caused by refraction and reduces glare to a minimum
- Suitable for mounting in 100mm recess depth ( minimum recess required = 85mm )
- Plug in driver for ease of installation
- Long life L80 >50,000 hours

These downlights are all rated IP65 and come with the following options which must be specified at time of ordering:

- Available in 3 beam angles : 35°, 45° and 60° (D35, D45 and D60)
- Available in 3 colour temperatures: 2700K(V), 3000K(W) and 4000K(Y)
- Dimming - trailing edge / DALI / 1-10V
- 3 hour emergency function

Die-cast aluminium downlight in gold finish.

**LED RF326D45L130000W**

# downlights

High efficiency white downlights:

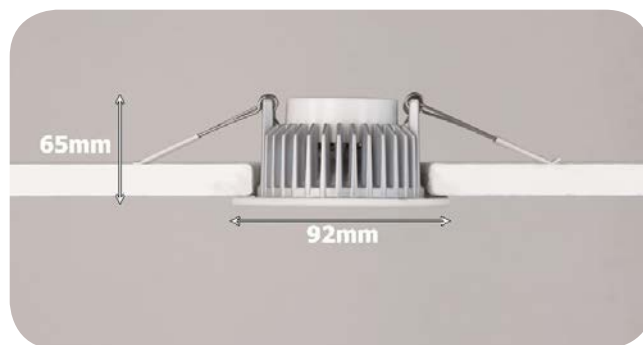

- Easy and discrete installation
- High Lumen output - up to 77 Lm/W reducing the number of fittings required
- Save up to 75% energy
- Approximately 35,000 hour life - ensures low maintenance costs and longevity of installation
- Dimmable integral driver with short circuit protection. **Only suitable for dimming with a trailing edge dimmer**
- 100° Beam angle provides uniform lighting and low glare
- Available in 3000K for the crisp appearance of a halogen lamp
- IP54
- Uses standard cut outs
  - RF298L09GT00W: Ø 72mm
  - RF301L15GT00W: Ø 100mm

## RF301L15GT00W

Dimensions are a guide only. No hole should be cut in the ceiling before receipt of fittings.

Compact matt black cast aluminium exterior wall lights. Rated IP44.

Matt black wall bracket with a clear glass bowl housing the lamp. Rated IP44.

### EXT6614

1 x 60W E27  
W 215 | H 280 | P 250 | IP44

Matt black flush wall light with clear glass panels. Rated IP44.

### EXT6613

1 x 60W E27  
W 170 | H 360 | P 100 | IP44

Matt black wall light with a clear glass encased in a metalwork cage. Rated IP44.

### EXT6616

1 x 60W E27  
W 270 | H 330 | P 290 | IP44

Matt black wall bracket with a clear glass bowl housing the lamp. Rated IP44.

### EXT6615

1 x 60W E27  
W 275 | H 345 | P 320 | IP44

Compact cast aluminium exterior wall lights and a stainless steel bulkhead fitting. Rated IP44.

Stainless steel bulkhead flush fitting with satin glass which can be ceiling or wall mounted. Rated IP44.

## EXT6620

1 x 60W E27  
Ø 205 | H 100 | IP44

Small matt black wall light which illuminates downwards. Supplied with 4.5W GU10 LED lamp. Rated IP44.

## EXT6619

1 x 4.5W GU10 LED  
W 115 | H 110 | P 165 | IP44

White wall light which illuminates downwards. Rated IP44.

## EXT6617

1 x 60W E27  
W 125 | H 175 | P 130 | IP44

Dark grey wall light which illuminates downwards. Rated IP44.

## EXT6618

1 x 60W E27  
W 125 | H 175 | P 130 | IP44

Compact exterior wall fittings constructed of 316 stainless steel. Number 1 illuminates both upwards and downwards and number 2 is a downlight. Supplied with 4.5W GU10 LED lamps. Rated IP44.

### EXT6546

2 x 4.5W GU10 LED  
W 80 | H 165 | P 90 | IP44

### EXT6545

1 x 4.5W GU10 LED  
W 80 | H 120 | P 90 | IP44

A classic Italian exterior lantern in brushed marine grade stainless steel with a transparent polycarbonate diffuser. Rated IP44.

### EXT6589

1 x 100W E27  
W 245 | H 350 | P 350 | IP44

Marine grade stainless steel fittings with clear polycarbonate lens. Rated IP44.

SUSTAINING MEMBER  
Society of  
Light and Lighting

Our modern and spacious premises are strategically placed in Milton Keynes for easy access to and from the motorway and rail networks. We are less than an hour away from Heathrow, Luton and Birmingham International Airports.

As a manufacturer and distributor of lighting for over 40 years, Franklite is known for quality products and efficient service. We constantly strive to offer products that provide optimal value for money; helping us to uphold and improve upon our well-earned reputation. We use only quality components in the construction of our lighting and all products are rigorously tested before leaving the factory. Our own in-house assembly lines make bespoke items easier to facilitate.

Our internal staff, renowned in the decorative lighting industry for their professional and efficient response, is one part of a fully experienced sales team able to offer assistance, both centrally and 'in the field'. Our efficient and friendly Sales and Customer Service Departments will help with any queries and may even help you select the right products prior to processing your orders.

Our extensive warehouse holds approximately 95% of our lines in stock at any single point in time; overseen and despatched by our experienced distribution team.

## FRANK *led*

We have pioneered decorative LED luminaires with the inventions of the **LED13<sub>duo</sub>** and **Eco-Disc**. Commercially available under the FrankLED brand, these products have been designed with a 'no compromise' approach as a prerequisite.

# how to use the catalogue

With the continued phasing out of tungsten lamps, we have made it a priority to simply offer alternative light sources by lamp base, these lamps are fully detailed on pages 262/263.

Our 'suitable for low ceilings' logo can be found throughout the catalogue as a guide for a head space up to a 36 cm drop.

Although design is an important

part of our business, customer satisfaction and safety are our main priorities, and all our fittings are subject to stringent quality control. Each item is individually tested to ensure compliance with the latest regulations and all safety procedures are regularly reviewed and improved. Luminaire maximum wattages, lamp types and dimensions are defined with

every product code.

All dimensions are approximate and, as part of our policy of continual improvement, we reserve the right to make modifications at any time.

All luminaires are supplied for normal use. Any extraordinary usage or situation should be advised prior to placing an order.

## LED Lifetime

All our LED products are manufactured using the most suitable components for the application for which they are intended. Dependent upon application, the lifetime should, in general, exceed that of standard incandescent luminaire by up to 50 times without the need for lamp maintenance. For professional applications see our FrankLED range at [www.frankled.com](http://www.frankled.com).

Some E27 and E14 fittings are suitable for LED light engines; these are denoted by .

For full details of our LED warranties, see the Legal Matters page on our website.

## Model and glass / lampshade number

Throughout the catalogue, where a product code is shown with a separate glass or lampshade number, the complete code should be used if the item is to be supplied as illustrated i.e. FL2290/1/927 where FL2290/1 is the fitting number and 927 is the glass number. If the glass or lampshade shown is not required, use only the fitting number.

Fittings shown with glasses or lampshades which are not coded separately will automatically be supplied with the glass or shade shown and cannot be interchanged.

## Wattage

This is the maximum wattage and recommended lamp type (where indicated) which should be used. The maximum wattage should never be exceeded. All fittings supplied with lamps are rated with the maximum rating permissible under the EUP legislation (EC) No 244/2009. These newer lamps typically offer a similar performance to older variants but at a lower rated wattage.

## Dimensions

**Diameter (Ø):** Overall diameter including glassware or lampshade as illustrated (except where stated 'not including shades').

**Height:** The overall measurement from top to bottom where a product is not adjustable.

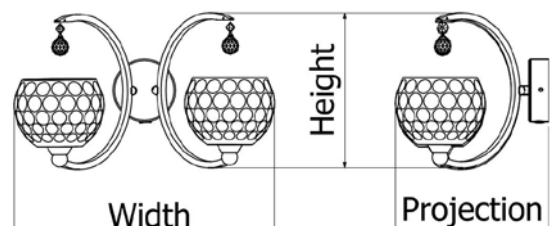

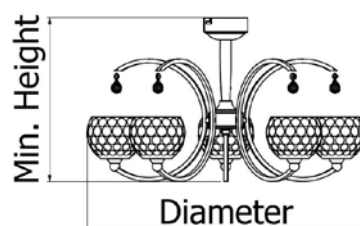

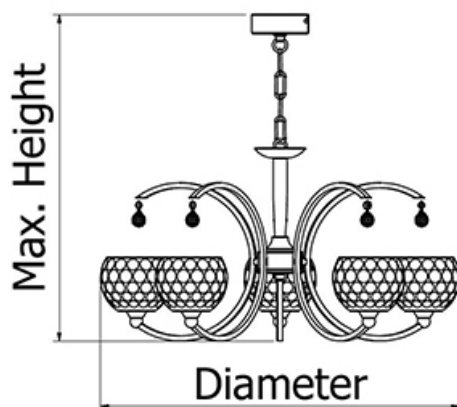

**Min. Height:** The overall measurement from the top of the ceiling fixing to the lowest point of the fitting including the minimum amount of chain or cable.

**NB:** Fittings are supplied to accommodate the maximum height and can be shortened on site prior to installation. They should not be shortened to less than the given minimum height as installation of certain fittings too close to a surface can cause discolouration of the surface finish.

**Max. Height:** The overall measurement from the top of the ceiling fixing, including the maximum amount of chain or cable, to the lowest point of the fitting.

**Projection:** Overall projection of a bracket including glassware or shade as illustrated (except where stated 'not including shades').

**Width:** Overall width including glassware or shade as illustrated (except where stated 'not including shades').

## Emergency lighting

Various luminaires can be supplied with integral 3 hour maintained emergency gear. The appropriate model numbers are shown with  next to the standard code. Other units may be supplied with remote emergency gear where required provided the fitting is suitable.

## Lighting on flammable surfaces

All light fittings develop heat when working, some more than others. Light fittings are marked according to their suitability for different mounting surfaces.

Under BS EN60598-1:2015 the following symbols are used when luminaires are not suitable for mounting in certain applications:

Not suitable for covering with thermal insulation

Not suitable for mounting in a normally flammable surface

Not suitable for mounting on a normally flammable surface

## Symbols explained

Double insulated fitting (requires no earth connection)

LED options available

Emergency options available

Dimmable options available

Integral lighting control options available

Fittings are manufactured in brass with the exception of the chain which, for strength, is made of steel.

If you require further information, please call our customer service department.

## the company's conditions of business

### 1 Interpretation

- 1.1 The definitions and rules of interpretation in this condition apply in these conditions.

**Buyer:** the person, firm or company who purchases the Goods from the Company.

**Company:** Franklite Limited and/or Franklite Limited trading as Franklite Creative Lighting of registered office 21 Bedford Square London WC1B 3HH.

**Contract:** any contract between the Company and the Buyer for the sale and purchase of the Goods, incorporating these conditions.

**Delivery Point:** the place where delivery of the Goods is to take place under condition 4.

**Goods:** any goods agreed in the Contract to be supplied to the Buyer by the Company (including any part or parts of them).

**Intellectual Property:** means copyright, patents, know-how, trade secrets, trade marks, trade names, design rights, rights in goodwill,

rights in confidential information, domain names and all similar rights and in each case whether registered or not.

**Working Day:** means a day other than a Saturday, Sunday or public holiday in the United Kingdom.

- 1.2 Condition headings do not affect the interpretation of these conditions.

### 2 Application of Terms

- 2.1 The Contract shall be on these conditions to the exclusion of all other terms and conditions (including any terms or conditions which the Buyer purports to apply under any purchase order, confirmation of order, specification or other document).

- 2.2 These conditions apply to all the Company's sales and any variation to these conditions and any representations about the Goods shall have no effect unless expressly agreed in writing and signed by a director of the Company.

- 2.3 No order placed by the Buyer shall be deemed to be accepted by the

Company until the Company either acknowledges the Buyer's order or delivers the Goods, whichever is the earlier; and where a pro-forma invoice is issued, the Company receives cleared funds.

- 2.4 The conditions printed on the Company's price lists from time to time, will be incorporated in the Contract in addition to the conditions herein.

### **3 Description**

All samples, drawings, descriptive matter, specifications and advertising issued by the Company and any descriptions or illustrations contained in its catalogues or brochures are issued or published for the sole purpose of giving an approximate idea of the Goods described in them but may differ upon reproduction via other paper or electronic media. They shall not form part of the Contract and this is not a sale by sample.

### **4 Delivery**

- 4.1 Unless otherwise agreed in writing by the Company, delivery of the Goods shall take place at the Buyer's place of business.

- 4.2 The Company's standard delivery is Monday to Friday between the hours of 08:00 and 18:00. The Company shall use reasonable endeavors to ensure that Goods ordered by 11.00am are delivered by 18:00 the next Working Day. Goods which are ordered and are required to be palletized shall be delivered between 1 and 3 Working Days after dispatch.

- 4.3 The Buyer shall ensure that it is available to accept delivery of the Goods between the Company's standard delivery hours as set out in clause 4.2. The Buyer should notify the Company in writing if it is not going to be available to accept delivery of the goods.

- 4.4 If for any reason the Buyer fails or refuses to accept delivery of any of the Goods, including not being available to accept delivery of the Goods, then the Company shall:

(i) attempt to redeliver the Goods on the next Working Day; or after re-delivery attempts

(ii) store the Goods until delivery can be made at the Buyer's own risk and expense;

(iii) Where delivery has been attempted and refused the Buyer shall pay all costs associated with the redelivery of the Goods.

- 4.5 The Company shall not be liable for any loss caused by any delay in the delivery of the Goods nor shall any delay entitle the Buyer to terminate or rescind the Contract.

- 4.6 Any dates specified by the Company for delivery of the Goods are intended to be an estimate and time for delivery shall not be made of the essence.

- 4.7 The Company may deliver the Goods by separate instalments. Each instalment shall be a separate Contract and invoiced and paid for in accordance with the provisions of the Contract.

- 4.8 Pallet Delivery - The Buyer shall visibly inspect the palletized consignment at the time of delivery and if it notices any damage to the packaging or the pallet then it shall note this on the driver's delivery note, or refuse to accept the delivery. Where damage to the packaging has been noted on the driver's delivery note, the Buyer will also inform the Company in writing within 2 Working Days of delivery of the Goods.

- 4.8.1 Parcel Delivery - The Buyer shall visibly inspect the Goods and if it notices any damage to the packaging then it shall note this with the delivery driver, and the Buyer shall, at its discretion accept or refuse the delivery. Where damage to the packaging has been noted, the Buyer will also inform the Company in writing within 2 Working Days of delivery of the Goods.

- 4.9 The Buyer shall perform a visual inspection of the Goods following delivery and shall notify the Company within 7 Working Days of the Goods being delivered of any damage or defect to the Goods.

- 4.10 If the Buyer will be responsible for installing the Goods, the Buyer shall test the Goods prior to installation and shall notify the Company within 2 Working Days if any mechanical or electrical faults to the Goods are detected during such testing. If the Buyer is not responsible for installing the Goods, the Buyer shall take all reasonable steps to ensure that the person who will be responsible for installing the Goods is informed that the Goods must be tested prior to installation and that such person must notify the Company within 2 Working Days if any mechanical or electrical faults to the Goods are detected during such testing.

- 4.11 The Buyer shall take all reasonable steps to ensure that the end user customer of the Goods is informed that the Goods should be properly maintained, as per the written maintenance instructions that are included with the Goods, including, but not limited to, periodic cleaning of the Goods (the frequency of which depends where the Goods are installed), use of approved cleaning products and the periodic tightening of shades and shade rings.

### **5 Returns**

- 5.1 The Company does not offer Goods on a sale or return basis. Where Goods have been supplied to a Buyer which have been altered, are bespoke or are manufactured to that Buyer's requirements Goods will not be authorised for return save for where they are defective and such defect is notified to the Company in accordance with clause 4.6 to 4.10 inclusive.

- 5.2 The Buyer must notify the Company within 5 Working Days of the Buyer accepting delivery of the Goods if the Buyer has incorrectly ordered the Goods. The Buyer shall not be entitled to return any goods which have been incorrectly ordered. If the Company agrees to the Buyer returning any Goods which have been incorrectly ordered, the Buyer will receive written notice of the same from the Company and it will be subject to a handling fee. The Buyer is not authorised to return Goods until it is in receipt of such written notice from the Company. Following inspection by the Company of any returned Goods and subject to the Company's absolute discretion, a credit will be issued provided that the Goods have been returned to the Company in their original packaging, not damaged and in full working order. If the Goods or packaging are damaged when returned the Company reserves the right to increase the handling fee or to cancel the offer of credit.

- 5.3 If the Buyer returns Goods to the Company without first obtaining the Company's consent to return the Goods then it shall be the Buyer's responsibility to arrange for collection of the Goods. The Company will notify the Buyer that the Goods have been repackaged for collection and provide a date that the Goods must be collected by. If the Goods are not collected by the given date they will be disposed of and the Company shall not be liable for any loss as a result of such disposal.

### **6 Non-delivery**

The Company shall not be liable for any non-delivery of Goods unless the Buyer gives written notice to the Company of the non-delivery within 3 days of the invoice date. Any liability of the Company for non-delivery shall be limited to replacing the Goods within a reasonable time or issuing a credit note at the pro rata Contract rate.

### **7 Risk/title**

- 7.1 The Goods are at the risk of the Buyer from the time of delivery or if the Buyer refuses or fails to accept delivery in accordance with clause 4.4 then risk passes to the Buyer when delivery is attempted.

- 7.2 Ownership of the Goods shall not pass to the Buyer until the Company has received all sums due to it in respect of the Goods; and all other sums which are or which become due to it from the Buyer. Until ownership of the Goods has passed to the Buyer, the Buyer shall hold the Goods on a fiduciary basis and store the Goods separately from all other goods and ensure that the Goods remain clearly identifiable as the Company's property.

- 7.3 The Buyer may resell the Goods before ownership has passed to it under the condition that any sale shall be affected in the ordinary course of the Buyer's business at full market value with the written consent of the Company and the Buyer shall deal as principal only.

# the company's conditions of business

7.4 The Buyer's right to possession of the Goods shall terminate immediately and the Goods shall be returned to the Company if the Buyer becomes subject to an administration order or winding-up petition, becomes bankrupt or has a receiver appointed.

7.5 The Buyer grants the Company, its agents and employees an irrevocable license at any time to enter any premises where the Goods are or may be stored in order to inspect them or, where the Buyer's right to possession has terminated, to recover them. Where the Company is unable to determine whether any Goods are the goods in respect of which the Buyer's right to possession has terminated, the Buyer shall be deemed to have sold all goods of the kind sold by the Company to the Buyer in the order in which they were invoiced to the Buyer.

## 8 Price

Unless otherwise agreed by the Company in writing, the price for the Goods shall be the price set out in the Company's price list published on the date of delivery or deemed delivery. The Company reserves the right to amend the price of its goods without notice.

## 9 Payment

Payment is due on the last day of the month following that in which the goods were invoiced. Time for payment shall be of the essence. Interest on overdue invoices shall accrue from the date when payment becomes due until the date payment is made at the annual rate of 4% above the base lending rate from time to time quoted by Lloyds Bank.

## 10 Quality

10.1 The Company warrants to the Buyer that products purchased (excluding lamps) will be free from defects in materials and workmanship for 12 months from date of delivery to the buyers place of business or nominated address. All other warranties and conditions implied by law (whether under any statute, regulation, directive or otherwise) regarding the quality and fitness of the Goods are hereby excluded to the maximum extent permitted provided always that nothing herein shall affect any rights that the Buyer may have as a consumer.

10.2 The Company shall not be liable for a breach of the warranty in condition 10.1 unless the Buyer gives written notice of the defect to the Company within 7 Working Days of the time when the Buyer discovers or ought to have discovered the defect and the Company is given a reasonable opportunity to examine such Goods. The Buyer shall return the Goods at its own expense to the Company's place of business for examination. The Buyer shall not return Goods until in receipt of written authorisation of the same from the Company.

10.3 If Goods are returned to the Company by the Buyer as being faulty but upon inspection and testing no fault is discovered the Goods shall be returned to the Buyer at its own cost or will be made available for the Buyer to collect from the Company's place of business. If the Buyer does not collect the Goods by a given date the Company reserves the right to dispose of the Goods. If Goods are alleged to be faulty and the Company agrees to inspect those Goods at the place where they have been installed, in the event that it is subsequently determined that the Goods are not faulty the Buyer shall reimburse the Company for all costs and expenses reasonably incurred by it in carrying out that inspection (including but not limited to an amount to cover the time spent by Company's own personnel).

10.4 The Company shall not be liable for a breach of the warranty in condition 10.1 if:

- (a) the Buyer (or any subsequent purchaser of the Goods) alters or repairs such Goods without the written consent of the Company; and/or
- (b) the Buyer (or any subsequent purchaser of the Goods) fails to properly maintain the Goods in accordance with the Company's written maintenance instructions. Refer to Clause 4.11.

10.5 Subject to condition 10.5 and condition 10.6, if any of the Goods do not conform with the warranty in condition 10.1 the Company shall at its discretion repair or replace such Goods (or the defective part).

If the defective product cannot be repaired and the same product is no longer available, Franklite will provide an alternative product which Franklite determines is of a similar specification and quality or refund the price of such Goods at the pro rata Contract rate.

10.6 Any Goods replaced shall belong to the Company and any repaired or replaced Goods shall be guaranteed on these terms for the unexpired portion of the 12 month period.

## 11 Intellectual Property/Reproduction of Images

The Company's Intellectual Property In the Goods and all associated materials (including packaging and advertising materials) shall remain the exclusive property of the Company at all times. Any reproduction or use of the Company's Intellectual Property shall not be permitted unless prior written consent is obtained from the Company.

## 12 Limitation of Liability

12.1 Subject to clause 12.2, the Company shall not be liable for:

- (i) consequential, indirect or special losses; or
- (ii) (whether indirect or direct) loss of profit, loss of contract, loss of use, loss of opportunity, loss of savings, discount or rebate (whether actual or anticipated) or harm to reputation or loss of or damage to goodwill.

12.2 The limitations on liability as set out in clause 12.1 shall not apply to any matter which it would be illegal for it to exclude liability.

12.2 The Company's total liability shall be limited to the price payable for the Goods.

## 13 Force Majeure

The Company reserves the right to defer the date of delivery or to cancel the Contract or reduce the volume of the Goods ordered by the Buyer if it is prevented from or delayed in the carrying on of its business due to circumstances beyond its reasonable control.

## 14 General

The formation, existence, construction, performance, validity and all aspects of the Contract shall be governed by English law and the parties submit to the exclusive jurisdiction of the English courts.
